TECHNICAL SPECIFICATION

Application

- protects the edge of the step and has three types of lighting modes; warning light, lighting the steps and both lights at the same time

Assembly

- with bolts appropriately selected for the type of the mounting surface

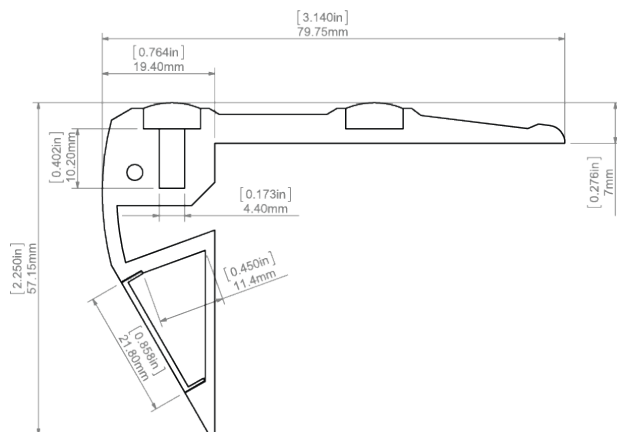

Additional information

- the extrusion is sold with two Anti-slip rubber strips
- part flush to the vertical plane of the step fits in the angle of 30 degrees
- the bottom LED strip directs the light forward and is secured with the LIGER-22 cover
- narrow LED strips (up to 6 mm) that emit light from the side in the channel under the silicone strip
- standard LED strip width (up to 10 mm) to illuminate the step
