TECHNICAL SPECIFICATION

Application

- construction of lighting fixtures incorporated as furniture lighting

Assembly

- with mounting adhesive and professional double-sided adhesive tapes

Additional information

Profile bending

Minimum internal radius	Minimum external radius
150 mm	150 mm

- minimum radius – bending radius which when exceeded causes destruction (deformation, bending or lack of compatibility with other accessories, e.g. covers, end caps, etc.) of the profile
- internal radius – refers to the profile bent so that the cover is facing the inside of the arch
- external radius – refers to the profile bent so that the cover is facing the outside of the arch
- irregular curves are possible after consultation and individual quotation
- when bending anodized profiles, one should be aware of cracking of the anode coating (which may be more or less visible depending on the radius)

AVAILABLE LENGTHS

Ref. nr.	surface finish	available lengths
B3775ANODA_1	Silver anodized	1000 mm
B3775ANODA_2	Silver anodized	2000 mm
B3775ANODA_3	Silver anodized	3000 mm
